Bloodline: (Partial pedigree from last known owner – research in progress)

Mothers Registered name: Dodgers Aniday

In mothers line: Dodgers Playboy, Do it Dodger, No Trouble Jack

On father side and mothers side: Eternal Belle, Eternal Son

**Sir Lancelot
"Lance"**

From the owner of a "Do It Dodger" herd: "A couple of things about these Dodger babies: They are slow to mature, they typically have smaller and cuter heads, and they are extremely smart. She has learned that they do need to be trained by a professional, but once they are trained...they are trained."
